# HIGH-VALUE HOMEOWNERS' RISKS.

Strong winds tear the entire roof off a home; a visitor slips and sues the homeowner; a floor made from imported marble is damaged.

Homeowners throughout the US – whether it's their primary residence, a home in the course of construction or even a vacation home on Airbnb – face a wide range of risks to their property from natural threats such as storm or hail damage, as well as fire or other accidents.

---

## Homes covered by Hiscox

To help US high-value homeowners' buy the comprehensive cover they need, we offer an 'all risks' policy – unless it's excluded, it's covered – combined with straightforward policy language and backed by our promise to pay quickly and without argument when it comes to settling valid claims.

Binding authority contracts are in place across the United States, increasing the ease with which customers can access our products.

## Claims expertise when you need it

With an appetite for risks up to \$50 million, Hiscox High-Value Homeowners' Insurance provides coverage not always available through other insurers; and at a time of crisis, our expert claims team responds effectively, working to limit and rectify damage as quickly as possible.

## Secondary or tenanted homes

Standalone cover is also available for secondary or tenanted homes, vacant homes, as well as those in the course of construction.

## Our cover includes:
